EDMONTON BULLETIN NOV. 10th, 1902.

THE HEALTH OF THE CAPITAL

Regina and surroundings has been proclaimed an infected district by the Northwest government, owing to the prevalence of diphtheria in the town. In view of the facts the question is naturally asked why was it not done sooner, and effective measure taken to stamp out the disease. It is not sufficient to say that the responsibility rests on the town authorities. It does but the local government also has a responsibility in Regina, beyond that in regard to any other town. People whose business with the Territorial government requires them to visit Regina are exposed to all the dangers of the existence of contagious disease. If the town authorities do not take adequate protective measures it is the duty of the government to take such measures promptly, in the interests of those who living in other parts of the Territories are compelled to go to Regina. Members of the legislature should not have their lives endangered while attending to their legislative duties, because the town authorities are incompetent or negligent. The local government has paramount authority and therefore responsibility. It is to the government that the people of other parts of the Territories look to protect them when at the seat of government at the order of the government. At the present time over 100 normal students from all parts of the Territories are in Regina. They are compelled to go there and to remain taking a course for four months before the law allows them to teach in the Territories. The sanitary conditions of the town where so many people from all parts of the Territories are compelled to congregate is a matter of Territorial and not merely of municipal interest. The conditions being as they are unless the town authorities take such steps as they evidently have not yet taken, or unless the local government does for the town what the town should do for itself, there will be a general demand that future normal sessions be held elsewhere than at Regina. No doubt it is much more convenient for the education department that they should be held there, but the health and safety of the students is much more important than the convenience of the department.

London Fur Market.

The McMillan Fur & Wool Company's circular of Nov. 1st, has the following remarks on the October London Fur sales:

Bear.—The sales show further decline, and in this country only a few of the finest, silkiest bears and cubs are in demand. The bulk sell at low prices. Bear runs more to the lower sorts than any other article, many being killed in fall and early winter, and some shippers expect No. 1 prices for unprime skins. Buy low grade bear at low average prices.

Beaver.—Declined heavily abroad and the American demand is very limited. Beaver is a standard fur, but out of fashion. Dealers have given up expecting it to come into fashion.

Wild cat.—Sold at very low average prices, notwithstanding small offerings. Not much demand in this country.

Fisher.—None in the sale. No demand here or Europe. Other furs are dyed and substituted and it has been declining for several years.

Silver fox.—Advanced 20 per cent, but as only 20 were offered this advance signifies nothing. We repeat, only a few best skins command high prices. They must be perfect, black or dark silver. It is a fancy article and no one wants imperfect or unprime skins at high prices.

Cross fox.—None in the sale. They are on a low basis, except a few dark specimens. Singularity, ordinary cross-fox average little, if any, higher than red fox.

Red fox.—Declined quite heavily at the sale. Have been in great demand in this country and Europe at extremely high prices for natural purposes and dyeing, but the market having turned, will probably sell on a lower basis. A good deal of money could be lost on red fox, should they go out of fashion.

Blue fox.—Unchanged at sale. Are consumed principally in Europe. We handle a good many. Look for present prices to be maintained.

Grey fox.—Unchanged at sale. Not much demand, either here or in Europe. Are not on a high basis and seem safe at present prices and may do better.

Lynx.—Showed some decline. Are fashionable in this country, but are ruling so high no further advance may be looked for. If stocks were not so

small they would not command present prices. Will be more plentiful in the March sales, particularly the Hudson's Bay Company's.

Marten.—Unchanged at the sale. In demand in Europe and this country. Very fashionable; the light colors used for blending. High prices materially stimulated the catch last season, and will again as soon as cold weather starts. Large quantities said to be held for the coming Hudson's Bay and general January sales, and with the new collection added present prices can hardly be maintained.

Mink.—Unchanged at the sale. Fashionable both abroad and here, the dark ones in natural colors, the pale for blending. Buy carefully, because of the great difference in prices between the large dark and the small pale, even when prime, and the unprime are worth still less. Mink are high. We recollect selling 15 years ago a large fancy lot of large northwestern mink, containing but a small per cent of unprime, at 58 cents average to a son of a Leipzig dealer. The high prices will increase the catch.

Muskrat.—Spring rat advanced at the sale 20 per cent, recovering the loss of last June fall and winter virtually unchanged. Muskrat in fair demand here and abroad. The advance in spring rat will not help any as none will be received until next spring. Enormous quantities of Manitoba and similar rats are held for the Hudson's Bay (their year's collection) and general London sales in January, and the latter will be heavily swelled by the November and December catch. Prices of fall and winter rat can no more than be maintained, even admitting a great consumption all over the world.

Otter.—Declined materially at the sale. Last season commanded very high prices all over the world. Otter is a standard article in this country, but manufacturers will discriminate more carefully in buying than last year.

Skunk.—15 per cent lower at sale than in March, or same as in June. Demand very light in this country where bulk must be consumed. Must be bought much lower than inflated prices paid last year.

Wolf.—Reported unchanged at the sale, but actually sold very low average. Most of last season wolf were in very active demand in this country. Advances in wolf usually short-lived.

Our quotations are as correct as possible from American and European advices, but no definite forecast can be made until it is seen what furs are wanted and what manufacturers pay. The London sales indicate European values and establish a basis for manufacturers to buy on. This country is prosperous and furs fashionable, and wholesale manufacturers have had good trade. It is early and too warm for heavy retail trade, but may get cold any time. Manufacturers must have carried heavy stocks because re-orders are small and few. The only furs that should be caught the first of this month are beaver, mink, muskrat, raccoon, skunk. Skunk become prime first. Some caught now are nearly prime, others hardly grade No. 2; the average is about No. 2. Beaver and mink grade No. 2 and 3, according to section caught. Furs caught earlier than this grade proportionately lower. Mink rapidly becomes prime with cold weather, but should not be trapped freely much before Thanksgiving. Muskrat are grading fall, and present collections grade 25 to 30 per cent kitta; eastern and Wisconsin contain a much less per cent. The per cent of kitta decreases until spring when it is very light.

Beware of extreme prices. They are fictions and firms issuing them sort the furs to death.

Auction Sale

OF VALUABLE

TOWN PROPERTY

Consisting of

Store and Dwelling House

On Fraser Avenue, 1 Block North of Alberta Hotel,

—OS—

Friday, 14th November, 1902

Shortage of Cars.

Tribune, Oct. 31.
Mr. W. R. Motherwell, of Indian Head, a fine type of the western farmer, large in mind and in body, is in the city to-day. He is here in the interests of the Grain Growers' Association of the Territories, and matters pertaining to that organization are occupying all of his time and closest attention while in the capital. It is the intention of the members of the association to locate a representative here for some time to make a scrutiny and study of the wheat market situation in all its phases. The man selected is Mr. P. Daymen, of Kealis.

"We are worse off now," said Mr. Motherwell to a Tribune representative, "than when we had no loading platform. Before we had a loading platform, we had a loading platform at any place on the track, but now we are prevented from loading at wheat excepting over the small platform. Cars may be standing idle, but we are not permitted to touch them unless drawn up to the platform, which is only about the length of a single car. We applied to the elevator commissioner—we had to do this before the middle of October—to have a platform erected long enough from which to load three cars. Mr. Castle replied that if we had a platform long enough for just one car we might then go another, and he went on to state that this would be to our advantage, but we still have just the one platform and it is used for every conceivable purpose. The other day a separator was standing at one end of it and an engine at the other. It is used for loading cattle and unloading horses, coal, lumber, etc. We are not permitted to load at any other place on the station grounds on the plea that we might damage the railway company's property. Before we had the platform there was no such complaint."

"We have had a shortage of cars, certainly," said Mr. Motherwell with emphasis. "The farmers have only had two cars at the loading platform for new wheat up to the time I left. That is at Sinituluta station. All told we have had 25 cars and 15 have gone out, 10 yet remaining."

"How about Indian Head?"
"They are getting more cars there. They resort to all sorts of dodges to get cars, and seem to be better supplied."

"Have you applied for cars at Sinituluta?"
"Yes, the farmers have put in 33 applications at Sinituluta and 100 at Indian Head."

"What do you estimate the farmers' loss in not having cars and loading platform facilities?"

"Eight or nine cents a bushel," replied Mr. Motherwell.

"And how much grain do the farmers market?"

"Indian Head, about 1,500,000 bushels, and Sinituluta, 800,000."

"What action do the farmers propose taking?"

"That's hard to say. We want to get the matter fixed so as to have the right to load anywhere."

Mr. Motherwell intimated that he would not like to put into words the innermost feelings of the farmers on the working of the Grain Act and the shortage of cars. He says it looked to him like Sunday when coming along the line, with the elevators closed, and he only saw one load of wheat being marketed.

Girdles the Globe

Free Press, London, Oct. 31.—Special Cable.—The British Pacific cable has been completed, and will be officially opened to-day. The event is regarded as of the highest importance, as the completion of the cable brings into being for the first time a British telegraphic girdle around the globe. The cable is 7,900 miles in length, and has been laid in three sections. The southern section joins Brisbane and Norfolk Island, the northern section extends from Vancouver Island to Fanning Island, and the central section, which was completed yesterday, unites Fanning Island to Norfolk Island. The Vancouver-Fanning portion is the longest cable without a break in the world.

The cable steamer Colonia, left Bamfield Creek on September 18, to lay the stretch of cable to Fanning Island, and allowing for slack, she soon had 4,561 miles of deep-sea cable stretched to Fanning. On October 6 the Colonia went to Honolulu, where her crew were transferred to the cable steamer Anglia, and that vessel, after making the shore connection with Fanning, started out October 18 for Sina, to lay the last link connecting the Fijis with Norfolk Island, to which the cable had already been connected by the Anglia from New Zealand and Queensland. This work, according to advices from the cable steamer, was completed to-day.

Customs Officers Haul.

Telegram, Windsor, Nov. 3.—Walkerville customs officers took charge of a bulky package of contraband goods yesterday morning consisting of blankets, suitings and cotton goods which a Jewish peddler was attempting to bring into the country duty free.

The goods, of which there are enough to stock a small country store, were concealed in a wagon, which the peddler evidently expected would be subjected to more than cursory examination. The entire outfit was seized, and will probably be put up at public auction at the next regular customs sale.

Four Canadian Pacific.

Montreal, Nov. 2.—"There is ample room for at least four more railways right through the Pacific," said Hon. A. G. Blair, Saturday. "The thing that impressed me on my trip through the Northwest most of all was the urgent need for more railways. I went over portions of the Canadian Pacific, Northern Pacific, Canadian Northern, and Great Northern, and found that while they had advanced very rapidly they had been unable to keep up with the remarkable progress of the country."

As minister of railways, I was particularly interested in finding out how the present railways answered to the needs of the country and the exact possibilities existing at the present time for more. With this end in view I inspected the land in nearly all the districts and found the possibilities so great that I would not hesitate for a moment to say that twenty miles on either side of a railway would be amply sufficient to permit of a railway being run with satisfactory results.

"Not only should the west have at least four more railways, but I am further convinced that it must have them or the cause of immigration which has been so active, would receive a severe setback. The outlying districts are already filling up very rapidly, and unless transportation facilities are afforded the settlers they will quickly become discontented and advise others not to come into the country."

"One of the things that pleased me most of all was that everywhere an almost general, if not, in fact, a general opinion, was to be found in favor of a government railway right through to the Pacific coast. The people want such a railway because they are convinced that it is the one great thing that will bring about the equalizing of rates, that will prevent the farmers from continually being at the mercy of the railways. They even claim it as their right to have one, and after seeing what I have of the country I agree with them. There cannot any longer be any doubt that there is a great future before a government railway to that country."

"As a result of my visit I hope to show parliament the necessity for a government railway through the west, for there cannot any longer Dominion lies greatly in the district beyond the Great Lakes."

No Jealousy This Time.

The following correspondence by wire has passed between Premier Roblin of Manitoba, and Hon. Clifford Sifton regarding the Doukhobor invasion of the province:

"Winnipeg, Man., Nov. 1.—To Hon. Clifford Sifton, Ottawa.—Doukhobors, whom we believe to be deranged, are rapidly approaching Manitoba boundaries. Will have to be dealt with either as lunatics or criminals. We do not want them to cross the boundaries. We have no facilities for handling them. Immediate steps should be taken by you to prevent their entering Manitoba. With a change of weather, a serious fatality is sure to overtake them. Please say if we will be relieved of all responsibility, financial and otherwise, should they reach Manitoba." (Sgd.) "R. P. Roblin."

Mr. Sifton replied as follows: "To Honorable R. P. Roblin, Winnipeg, Man.—The officers of my department, with necessary police assistance, are giving their best attention to the Doukhobors. Every precaution possible is being taken to prevent harm arising from the movement. I see no reason for giving any special guarantee to your government. I have no opinion to offer as to any action you may take. If you should decide to interfere with the officials whom I have placed in charge of the work, such action will be taken on your own responsibility." (Sgd.) "Clifford Sifton."

Rossland's Ore Shipments

Nelson Daily News, Nov. 2.
Rossland, Nov. 1.—With this week the Rossland camp commences to pile up tonnage in excess of the aggregate for last year. The record for 1901 has been reached and passed and the output for the balance of the present year will represent the gain in tonnage over last year.

Locally conditions have not altered appreciably. The Le Roi continues its output at about the figures that have ruled for some weeks and still employs from 350 to 360 men. The War Eagle and Centre Star mines are steadily increasing their output, this week's shipments being 3,400 tons. It is expected that a maximum of 3,600 tons weekly will be reached by the two mines, and that this will be the standard for the balance of the year.

Operations have been resumed at the Homestake mine, a well known property located in the south belt of the camp, which has not yet produced a large and regular shipment. The management is very confident as to the future of the property, and will push development actively.

Details of the present week's shipping operations are as follows: Le Roi, 3,584 tons; Le Roi, No. 2, 3,600 tons; Star, 2,070 tons; War Eagle, 1,350 tons; Total for the week, 7,454 tons. Total for year to date, 289,825 tons.

The Ligar Protest.

Tribune, Prior to the Ligar trial it had been supposed that persons subpoenaed to appear as witnesses at a trial were obliged to attend. It had, also, been generally thought that to incite and arrange for such persons to refuse to obey the summons of the court was a serious offense. For a constable charged with the execution of the law to act in connivance with those engaged in such work, and to place himself at their orders, was generally regarded as something demanding some notice on the part of the presiding judge.

Mrs. Peart, who had been intimately associated with prominent workers for the respondent, and who was aware of proceedings on their part, including, among other things, the complete violation of the secrecy of the ballot at least one poll, was subpoenaed by the petitioners. She did not attend. An order was issued by the presiding judge, still she did not appear. It was shown that she was in the province, that she could be got, and that the constable charged with bringing her knew where she was and could produce her, but was secretly acting under the orders of the defence. The court was asked to postpone the conclusion of the trial for a day or two and to compel the attendance of the witness. The court refused.

With that the court dropped the matter. There is no investigation into the scandalous proceedings by which the witness is kept out of the witness box. Could there be a more remarkable precedent to set in the administration of Canadian justice?

TENDERS FOR INDIAN LANDS

SEALED TENDERS, addressed to the undersigned, marked on the envelope, "Tender for Stony Plain Lands," will be received by this Department until noon on Wednesday, the third day of December, 1902, for the following farm lands, being a portion of the Stony Plain Indian Reserve, situate near Edmonton.

Township 52, Range 25, W. 4 M., Sections 29, 30, 31 and 32.
Township 52, Range 26, W. 4 M., Sections 25, 26, 27, 28, 29, 32, 33, 34, 35 and 36.

Each tender shall contain an offer at a rate per acre for not more than one quarter section of land and shall be accompanied by a cash deposit or an accepted cheque of at least five per cent of the amount of the tender, which shall be forfeited to the department in case tenderer fails to complete the purchase of the land.

TERMS OF SALE.—One quarter cash, upon advice of acceptance of tender, the balance in four equal annual instalments with interest at the rate of five per cent.

Any information regarding the lands can be obtained upon application to the Indian Commissioner, Winnipeg, or to the undersigned.

The highest or any tender will not necessarily be accepted.

J. D. McLEAN, Secretary.

Department of Indian Affairs, Ottawa, 23rd, October, 1902.

EDMONTON-LIVERPOOL

The possibilities of there being a market in Liverpool for the outputs of the numerous pork packing establishments of Alberta are suggested in the following letter received by the Gallagher-Hull Co. from Messrs. Stevenson & Pae, produce and commission merchants of Liverpool, Eng. The letter explains itself, the Liverpool firm hearing through a trade paper of the existence of the Gallagher-Hull plant at Edmonton, and making the suggestions of possible trade relations themselves. The letter reads:

Liverpool, October 22, 1902.
Messrs. The Gallagher-Hull Meat and Packing Co. Ltd., Edmonton, N.W. T., Canada.

Gentlemen: We saw in a trade paper lately of some trader on the Pacific coast who could get no good bacon. He had got, so he said, from Toronto, but it failed to please, then Winnipeg, and although better pleased with Edmonton, it was American he preferred. There may be some tastes on the Pacific coast that we cannot understand, but certainly where the cutting and curing is good the Canadian meat is quite ahead of the States on the British markets and we consider very deservedly so.

No doubt in the States the handling of the meat and the classifying of the different averages is a matter of wonder. The quantity accounts a good deal in respect to the latter and it may be that the party referred to required close averages, but it was quality that was referred to.

However, we did not before know of your plant at Edmonton and so we beg to address you and enclose our card.

We expect that you have plenty trade for all you cure in the mining districts as also notwithstanding the party referred to on the Pacific coast. But positions change fast and it may be that ere long markets on this side, and largely increased crops of hogs with you, may permit of trade between us.

Yours respectfully,
(Sgd.) STEVENSON & PAE.
STRAATHONA.

Plainsdealer, Nov. 7.

A. L. Marks came from Regina on Saturday last to give evidence in the case of the Crown vs. Wood which is before the court this week.

Mr. Benson is being succeeded as accountant in the Imperial Bank here by Mr. E. R. Van Koughnet lately teller in the Winnipeg branch.

Don Currie returned on Saturday night from the Pacific Coast to resume for the winter his position of grain buyer for the Edmonton Milling Co.

A ping pong tournament has been arranged for next Friday evening in Ross Hall.

Philip Dupuis has bought out Alex. Benson's blacksmithing business and took possession this week.

J. T. MacLaren, of the firm of MacLaren & Co., returned last night from a two months' visit to the east. Mrs. MacLaren and child have not yet returned.

Thomas Rist has resigned his position as section foreman on the C. & E. line here, to take effect at the end of the present month. Mr. Rist has been in the employ of the C. P. R. as a section foreman ever since the company was organized.

Messrs. McKenzie & Benson have taken over the McCormick implement agency in Strathcona, and at Leduc. Mr. Duggan expects to build an office on his property at the corner of Whyte Ave. and East Railway St.

W. H. Hawthorne is building a curling rink adjoining the skating and hockey rinks and hopes that a curling club will be organized to use it. It is remarkable that Strathcona has never had either a club or a rink for the roarin' game before.

On Saturday last John Vogel, for some time a clerk in the employ of A. E. Latimer here, was committed for trial by Insp. Belcher on a charge of stealing from his employer. F. C. Jamieson conducted the case for the prosecution and J. E. Wallbridge for the accused.

Wm. Brunelle, for some years a resident of Strathcona, arrived on Monday night from Dawson where he has been for the last three years. Mr. Brunelle is down on a brief visit and expects to return to the Yukon shortly. He has been engaged in the restaurant business in Dawson.

J. H. D. Benson, for the last four years a clerk in the Imperial Bank in Strathcona, left yesterday morning for Regina where he takes the position of accountant in the branch which the Imperial is opening there. On Wednesday evening a farewell supper was tendered Mr. Benson at the Victoria House.

Overseer Lang, of East Edmonton, reports the public roads in his district in good shape for the winter. Some new bridge have been built and the grades have been improved. The steep pitch on the west side of the Mill Creek at the Canadian Northern crossing of the way road has been greatly improved by Mr. McCrimmon under the company's instructions. The B. & K. Mill Creek crossing is now in first class shape.

The Doukhobors

Winnipeg, Nov. 3.—The Tribune learns that Mr. Moffat, of the immigration office, is making arrangements with the C. P. R. for a special train of five colonist cars to take the Doukhobor women and children from Yorkton to Swan River.

WETASKIWIN

Times, Nov. 6.

Wetaskiwin will have a new public school next year.

Mr. Jaffray, of the Imperial Bank, spent Sunday with Edmonton friends.

J. Giles returned to Edmonton on Monday after spending several days in this section purchasing stock.

Mr. and Mrs. Geo. Carmel returned on Tuesday's train after spending several days with Edmonton friends.

The firm of Paulson & Belsheim was dissolved last Saturday. Mr. Belsheim will continue the business.

About three-fourths of the taxes were paid by October 31st. The amount paid is about \$1,350.

A new general store is in course of erection on the east side of the track near R. C. Bauer's lumber yard and will be ready for business by Christmas. L. Doherty will be the manager.

Court will be held here next week, commencing Monday at 10 a. m., by Judge Scott. There is a large docket, and it will take several days to get through them.

The masquerade ball given in Berie's Hall on Halloween night was an interesting event. A large number attended and some very pretty costumes were worn.

Dr. Frank A. Lackner, dentist, has settled in our town and gone in with Dr. Hall. The doctor is a brother of Dr. Lackner, M. P. P., of Berlin, Ont.

D. H. Kirk left for Edmonton on Tuesday's train, where he will be the agent for the People's Mutual Life Insurance Co.

Among those who brought in cars of settlers' effects during the past week are: S. H. Lewis, A. Chapin and O. Ness, of Oaks, N. D.; A. Christianson, White, Minn.; E. Kjosless, P. Kjosless, T. Hagen, F. Chistman, and T. Cragstad, of Reville, Minn.; C. Steen, Glenwood, Minn.; and P. Lillermore, Red Lake Falls.

Messrs. A. W. Anderson and J. Asp are erecting a large feed and sale stable just south of the Swenson boarding house corner which will be a strong acquisition to that corner. The stable will have accommodation for about twenty-five teams and with favorable weather will be ready for use in about three weeks.

At a well attended meeting of those interested in curling, last Friday evening, a club was organized and the officers were elected for the ensuing season. The officers are as follows: Patron, A. S. Rosenroth, M. L. A.; president, R. L. Rushton; vice-president, J. F. Fowler; sec.-treas., V. C. James; executive committee, H. D. Faris, V. C. French and A. R. Dickson.

The presbytery of Edmonton held a special meeting in the Presbyterian church here last Monday afternoon and evening. There were present: The Rev. Dr. Herdman, superintendent of missions in British Columbia; and Revs. McQueen, of Edmonton; Fleming, of Strathcona; Forbes, of Fort Saskatchewan; White, of Lacombe; Foster, of Red Deer; Laing, of Olds; and Mr. Code, a layman from Olds. The meeting was of especial interest to the Wetaskiwin congregation as they have been looking forward for some time to the calling of a settled pastor. Two gentlemen have been lately before the people, whose services have been much appreciated. At an open meeting of the congregation Monday evening, the matter was fully discussed, and the vote which was taken resulted in a majority of one in favor of Rev. Mr. Hogg. The call has been transmitted to Mr. Hogg, and the presbytery now awaits his reply. The next meeting will be held at Olds, for the purpose of inducting Rev. Mr. Laing.

Manitoba Weather and Crops

Commercial, Nov. 1.—The rains at the end of last week, extending to the first of this week, stopped threshing for a time. There was not a great amount of water to fall, but it came in the form of quite a prolonged drizzle, and at this time of year it is much slower in drying after a rain than earlier in the season. The weather has been remarkably fine, and very mild for the end of October, most of this week. The rain would soften up the ground for plowing, which is the most pressing work with the farmers at present. Threshing is still going on, though some machines have finished up all they had in hand, and have been laid away for the present. Threshing generally is well advanced, and from present indications will be wound up in good time.

Saskatchewan Rifle Association.

Prince Albert Advocate, Nov. 2.—The adjournment organization meeting of the above club was held in the council chamber on Thursday evening last. Inspector Cartwright in the chair. There was a good attendance of members. The following officers were elected:

President, Judge Prendergast.
Captain, Mr. J. H. Wilson.
Sec.-Treas., Mr. J. D. Hanafin.
Executive, Staff Sergt. Parker, Mr. D. Adam.
Council, T. J. Agnew, J. Pollock, J. McKenzie, Dr. Stirling, S. J. Donaldson, A. H. MacDonald, P. S. Smith, Inspector Cartwright.

It was decided to make the annual fee \$2.00. Also that the rules and regulations of the old Saskatchewan Rifle Association be adopted as nearly as possible.

HOTEL ARRIVALS

Friday.

Queen's—A. Darnice, A. Gilbert; J. D. McGillivray, Ponoka; J. B. Barr, G. T. Montgomery, C. F. Stewart, D. Long, Fort Saskatchewan; F. M. Emert, Edmonton; J. D. Skinner, Lacombe; B. C. Adams, Spokane; S. McRobert, Alfred McRobert, Leduc; J. M. Barr, London, Eng.; Philip Woltersheim, Dazey, N. D.; H. H. Humber, Leduc; J. Key, Marysville; Robt. B. Holmes, Geneva, Neb.

Alberta—Geo. E. Ellis, F. A. Tinger, Winnipeg; T. G. Westlake, London; H. Lyle, Calgary; J. E. McLean, Elora; Merton Smith, Chicago; H. H. Humber, Leduc; Sam Vile, Hamilton; A. C. Russell, Rupert M. Watson, Montreal; T. H. Wardell, Toronto; Harry H. Cooper, Vancouver; S. Cook, Vermilion; W. J. Belfrage, Poplar Lake.

Jasper—D. E. Adams, town; N. S. Easle, Alameda, F. Weymouth and family, Boule, S. D.; Victor Bowen, Morinville.

Victoria—Jos. Dagnois, and wife, L. Lemire, Morinville; John A. McLeary, Guelph; J. Gibbons, Stony Plain.

Grandview—L. Bangerman, C. Clausen, Red Deer; J. D. McGillivray, Ponoka; Geo. Sutherland, John Bradley, Spruce Grove; P. W. Abbott, Stony Plain.

In Town or Country. I represent three of the best Fire Insurance Co.'s

F. FRASER TIMS,

Commission Broker,

Edmonton, Alberta

Territorial Gazette.

The Northwest Territories Gazette, of October 15th, contains the following notices of local interest:

D. H. Lent, of White Lake; D. J. Markberg, of Tindastoll; and P. B. Anderson, of Northern Alberta, are appointed justices of the peace.

George Robertson, of Vegreville, is appointed a commissioner for taking affidavits and also an issuer of marriage licenses.

Ole Bredeson, of Morningside, is a notary public.

D. C. Bayne, of Banff, is a coroner.

J. D. Davis, of Olds, is an issuer of marriage licenses.

James Capron, of Waghorn, is a fire guard.

Walter Waghorn, of Waghorn, is a game guardian.

Mayton school district No. 743 is proclaimed, comprising sections 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 14, 15, 16, 17 and 18 in township 33, range 27, and sections 21, 22, 33, 34, and 35 in township 32, range 27 west of the fourth meridian.

Castle public school district No. 571 is empowered to borrow \$300.

Horse Shoe Lake school district No. 697 is empowered to borrow \$600.

Coburn school district No. 704 is empowered to borrow \$1,000.

There is an alteration of boundaries between Dried Meat Lake and Hackberry school districts. The notice reads:

"The boundaries of the Hackberry public school district No. 606 of the Northwest Territories have been altered by adding thereto sections 1, 2, 3, 4, 12, 13, 24 and 25 in township 44, range 20 and those portions of sections 18, 19 and 30 lying west of the Dried Meat Lake in township 44 range 19 west of the fourth meridian; and that from and after the date hereof the said district shall comprise the following lands, namely: Sections 1, 2, 3, 4, 9, 10, 11, 12, 13, 14, 15, 16, 21, 22, 23, 24, 25, 26, 27, 28 and 29 in township 44, range 20, and those portions of sections 18, 19 and 30 in township 44, range 19 lying west of the Dried Meat Lake; all west of the fourth meridian."

Court sits at Edmonton on Thursday, Nov. 20th, at 10 a. m. to confirm tax forfeitures in local improvement districts Nos. 2, 17, 21, 22, 24, 30, 31, 33, 38, 42, 44, 45, 48, 52, 55, 59, 73, 159, 226, 231, 235, 240, 255, 401, 403, 405, 407, 422, 424, 434, 445, 451, 458 and 485.

Court sits at Deer Head on Tuesday, Nov. 18th, at 1:30 p. m. to confirm tax forfeitures in local improvement districts Nos. 12, 13, 14, 15, 54, 71, 81, 221, 231, 235, 239, 250, 278, 332, 324, 325, 331, 381, 396, 429, 431, 435, 469, 467, 468, 472, 473, 523 and 524.

Save the Forest.

Vancouver World; If as has been hinted in connection with the just held meeting of the Forestry Association, the efforts of that recently formed society are in any important degree responsible for the greatly diminished total of the loss by forest fires in British Columbia during the year just closed, every loyal citizen of the province should make haste to attest his enthusiastic sympathy with the association's good work by enrolling himself a member of this saying-little, doing-much organization—not only those citizens feeling a sentimental and somewhat poetic interest in trees in their beauty but more particularly those large practical element in the community which is impelled by business shrewdness to take an interest in all that makes for the systematic preservation of one of the most conveniently accessible and at the same time most valuable assets of British Columbia.

At the time of the Forestry Association's inception it was the theories and the students, rather than the practical business men who manifested interest in the organization plan. If the truth be told, the business men as a class—even the lumbermen who of all people should be thoroughly alive to the importance of a true Forestry Association—were inclined to smile indulgently upon the little coterie of enthusiasts by whom organization was finally brought about. They regarded them as unable to do any harm, and with possibilities for good; at the same time they did not take the Forestry Association seriously as a body capable of solving the problem that has perplexed and baffled millmen and governments in this western province. To put an end to or reduce to a minimum the loss by forest fires seemed rather too large an order to be seriously given any young association whose programme naturally would be limited to the holding of meetings and the reading of papers, with interpolated chapters of mutual compliment and congratulation. And yet since the Forestry Association has been formed, the forest fire loss has been most appreciably reduced; indeed during the just past season it may be said that there were fewer forest fires and these few of much less expensive character than in any year within the past twenty on this province. If the Forestry Association contributed to this gratifying result the organization cannot be too warmly commended and encouraged. And certainly the steps they have taken in providing machinery and workable system for the identification and punishment of those responsible for deforestation by carelessly kindled fires, permit them to receive a due proportion of the glory that is accruing to someone. Continued vigilance on the part of the association and of the officers of the law, with continued care on the part of prospectors, campers, sportsmen, and indeed all who invade the hills and woods, will

keep the forest fire at its lowest in this province, and thus preserve millions of dollars in natural wealth of the country, for the enrichment of its enterprising citizens and the maintenance of its industrious population.

PRINCE ALBERT,

Advocate, Nov. 3.

Wheat is bringing from 45 to 47 cents a bushel on the Prince Albert market.

Antoine Dubray has been appointed turnkey at the jail, taking the place of Jos. Savard, resigned. He commenced duties on 1st November, inst.

Jos. Savard has been appointed farm instructor at Sandy Lake Indian reserve. He has rented his residence, and is moving his family to his new location.

Mayor Stull has been laid up for the past few days with a severe attack of rheumatism. It will be some time yet before he is able to resume his duties as postmaster.

A loading platform has been erected at the East End station. It will be a great convenience, and much used by the farmers from Coleman, Meadowall, and Sheep Creek settlements.

Wednesday's train arrived here seven hours late, the delay being caused by the ditching of a work train at Saskatoon. A track had to be built around the wreck before the train could proceed north.

Postmaster Stull has been appointed collector of customs at this point, taking the place of Mr. C. O. Davidson, who resigned the position owing to his increasing duties as station agent.

A heavy fall of snow last night and to-day has given the country a decidedly wintry appearance. There has not been much frost as yet.

Mr. Jansen, representative of the Society of Friends of Philadelphia, in town. This society has donated \$2,000 towards the building of a school in the Doukhobor village west of Rosthern. The building is being pushed ahead as fast as possible.

Mr. F. C. Baker has completed the erection of a 6,000 bushel grain warehouse at Clouston Siding, and announces it ready to take in wheat, with Mr. McCleary, late of Prince Albert, in charge.

The Prince Albert elevator will be open for business to-morrow (Tuesday) morning, in charge of J. E. Bradshaw. The same people, Reilly, Parker and McVicar, who leased the institution last year, are conducting it this, on the same lines. From 45 to 47 cents will be paid for wheat on opening the market.

The Collector Grain-Growers' Association is a live organization and is doing a great deal to help its members to obtain the top price for their produce. The association is shipping grain direct from farmers' wagons this season, with gratifying results.

An elevator of about 25,000 bushels capacity is just being completed at Willowburg. This is becoming one of the grain-raising sections of the district, and the completion of the new elevator will be a great convenience to farmers in that vicinity and marks an epoch in the history of the village.

F. A. McLeod has purchased some twenty pigs, brought in here by the N. W. T. government, with which he intends to commence a hog ranch. He expects to increase his ranch to an industry of considerable importance.

In the death of Charles Smith, which took place on Thursday last, a noted character here passed away. As "Tippecanoe" he was known to everybody, many recognizing him by that appellation, who did not know his real name. Lately Smith has been a charge on the town, being unable to work, and within the past few weeks has been quite helpless. He was buried on Saturday in the Potter's Field at the public cemetery.

Geo. Bird arrived home last week from a 15 months' sojourn in the Yukon, where he worked at his trade of carpenter during that time. Mr. Bird reports business brisk in the capital, and many old Prince Albert residents doing well. "It is not the place for a family," said he, or he would not now be back. There is good money to be made, and the climate is healthy, reports to the contrary being all nonsense.

Considerable interest is being taken by the people of Saskatchewan district in a choice of representation for the Territorial legislature. The untimely death of the late W. H. Sinclair, M. L. A., was a severe blow. Several of the electors have been looking around for a suitable successor and Mr. B. Chubb has been urged to allow his name to go before the people. Mr. Chubb has been prevailed to do so and is now in the field.

A most creditable number of boys attended the meeting held in the public school on Wednesday evening last, for the purpose of organizing a company of the "Boys' Brigade," about 50 being present. The officers of the First Prince Albert Company are: Captain, T. S. Jones; Lieutenants, T. Chubb, J. M. Turnbull, A. Agnew.

FOR SALE.

The eastern half of Section 5-3-27, W. 4th, Spruce Grove, forming part of the farm of the late Noah Ziegler, deceased. This is a most valuable property, and as it must be sold in order to settle the estate it affords an excellent chance to land seekers. Apply to

McDONALD & GRIESEBACH, Solicitors for the "National Trust Company, Limited," Administrator. 105ft.

The I. O. F.

The Independent Order of Foresters are inaugurating a vigorous winter campaign, and for the months of November, December and January are remitting to new members the registration and certificate fees, which applicants usually have to pay upon joining. The order has made wonderful strides during the year, and will add to its membership many thousands during the next three months.

Its membership roll now contains a good deal over 200,000 of insured or beneficiary members. Its accumulated funds reach to almost \$6,000,000, and these funds are increasing at the rate of three-quarters of a million dollars a year, notwithstanding that the order pays out \$500 every working hour of the year to widows and orphans. A record of over \$12,000,000 already paid promptly on death claims stands to its credit. The I. O. F. is undoubtedly a great and progressive institution. The report upon its investments, made by a committee composed of able and independent brethren at the Supreme Court meeting in Los Angeles, stated that in all the investments of its funds the Supreme Executive had never lost a dollar. This is certainly a unique experience.

C. H. E. Ren, A. I. A., F. R. A. S., the actuary of the order, recently stated in regard to it: "After exhaustive tests I have failed to find a weak spot in its structure."

We congratulate the order and its Supreme Chief Ranger upon their work.—Toronto Daily Star, October 28, 1902.

Unreserved Auction Sale

100 Head Young Stock

Comprising Cows, Heifers and Steers, ranging from 1 to 6 years of age, number of young cows with calf.

The undersigned will sell at Public Auction on

TUESDAY, NOV. 11, 1902

At 12 noon sharp, at his farm section 8-54-22, three miles south of Fort Saskatchewan, the above stock, as well as the following: 1 team heavy farm horse, 1 Moline gang plow, 2 14-inch walking plows, 1 18-inch Scotch Clipper plow, 1 16-inch breaking plow, 1 set single harness, 1 light top buggy, 1 heating stove.

Zinc.

Vancouver World; They call it the zinc era in the Slocan now. The World has given details of the recent negotiations and was well within the mark when it spoke of the good to follow the entry of United States zinc hunters. The New Denver Lodge on this subject says. The zinc era has dawned in the Slocan, which means the inauguration of an era of prosperity the like of which the Slocan has never seen. Mining men well versed in the resources of the Slocan, and knowing its tremendous possibilities, predict that in a few months' time the camp will be experiencing the greatest boom that the people have known. And it will be founded upon good solid foundation. On Monday final arrangements were completed by Thomas Jones, representing the Lanyon Zinc Co., of Iola, Kan., for the shipment of 1,000 tons of zinc ore from four Slocan mines, the shipment to be as a test, to demonstrate what his company can do in handling the ore, and to find out the best rate the company can give the mine owners. The mines shipping are the Bosun 250 tons, Payne 250, Slocan Star 250, and Ivanhoe 250. The rate paid for this test shipment is far ahead of what was previously got from the Antwerp smelter people, but is not as good as the mine owners believe they will get from the Kansas company. To test the ore the Lanyon Zinc Company has installed an electric crusher and separator to treat the ore, at a cost of \$10,000, and Mr. Jones is authority for the statement that if the test is a success, as there is no doubt it will be, he will be in the field to contract for all the zinc the Slocan mines can produce. The railways have given a freight rate of \$11 per ton, which may be further reduced when large shipments are made. The rate given by the zinc company is on the sliding scale, but is in every respect ahead of the Antwerp rate. Already the Bosun and Payne mines are preparing the first shipment of eight car loads, and it will be sent out in a few days. The mines ship in sacks to Slocan City, where the ore is dumped on the cars and goes in bulk to the smelter, and the sacks are returned to the shippers by the company. At the Bosun a new strike of four feet of galena and zinc was made this week. The management is preparing to double the present force, which will mean the employment of 65 to 70 men. The ore houses are choked with ore and everything will soon be in full swing.

Below is given the daily readings of the thermometer for the month of October as taken by John Schofield, government observer, at Bon Accord station:

October.	Max.	Min.

Rainfall 0.49 inches.

INNISFAIR.

Free Lance, Nov. 6.

Daniel Jockim Morkeberg, of Tindastoll, has been gazetted a justice of the peace.

The well at the creamery ran dry during the summer and is being deepened this week.

Archer & Simpson have just completed the erection of a new Episcopal church at Pine Lake.

On Monday the Edmonton Bulletin entered upon its 23rd year. The Bulletin is a progressive paper and well deserves the success it has achieved.

We understand that the ratepayers of the Innisfail public school district will shortly be called upon to vote upon a by-law for the issuing of debentures to build an addition to the public school.

The summer season of the Innisfail creamery, closing Oct. 31, was a very successful one. While the total output for the season was a few pounds short of the 100,000 pound mark, the entire season's operations appear to have been very satisfactory. The total amount of butter manufactured during the season just ended was 99,242 pounds.

A BIG THRESHER

John Kennedy, of Poplar Lake, has disposed of the traction thresher which he has been operating for several years past and has purchased for use during the remainder of the present threshing season an improved Port Huron Advance 27-horse traction, with cylinder 40x60, self feeder, wind stacker and bagger. The machine is expected to arrive next week. This machine will have the greatest horse power and largest cylinder in the district. Mr. Kennedy has completed his own threshing and has 14,800 bushels, machine measure. About one thousand bushels less than last year, although he had a larger acreage in crop. Judging from the results so far the yield is about 25 per cent less than last year, especially in oats. The smaller yield is due to the unprecedentedly wet spring. Mr. Kennedy's old thresher goes to Vagreville in the Vermilion district.

—Albertan: "The Doukhobors have started for Winnipeg, saying that the Lord has told them to go," says a despatch. There is no more doubt about the insanity of the Doukhobors.

—Neepawa Press: There is an air of activity about the railway yards in Neepawa these days. Freight trains pass up and down daily on the C. P. R. and there are always from twenty to fifty cars lying in the yard. The C. N. R. yard tracks are filled with loaded cars of material for the line north. We are getting to be a city—no car shortage.

Vancouver World: Three thousand dollars in six days in Cariboo is good enough these times. The Ledger says: The Point Company's claim on Lightning Creek is yielding its owners a handsome profit for work done this season. A. Kelly, of Barkerville, owns a half interest in the property, the other half being owned by Wm. Fry and Jas. Innes, all well known Cariboo miners. Last week they took out 162 ounces for six days' work, working two shifts. Mr. Kelly has been in Cariboo for 40 years and during that time has expended \$40,000 in prospecting and mining on different creeks with but indifferent success. The Point property is the first that has made any show of an adequate return for the money he has sunk. It costs the Point company \$55, including timber and all expenses, for each 24 hours of work and everything taken over that amount is profit, so that the dividends earned lately are very satisfactory.

It is a Pleasure

To us to show our fall and winter blouses.

Because

It is easy
To make sales
From our stock.

Everybody says

That we have much the handsomest and most stylish waists in town: that we have a much greater variety of beautiful blouses to select from than can be got elsewhere; that our values are noticeably better than are offered at other stores.

We have them at all prices, beginning with Flannellette blouses at \$1.00. Cheap, but still show considerable style and attractiveness.

Our styles are too numerous to attempt to describe here, or to quote prices. We have them up to \$1.00 for our best wool blouses.

IN SILK Waists, we are showing very dainty productions, very handsome and stylish at \$3.50, \$4.00, \$5.00, \$6.50 and \$7.00.

Have you seen our Wrappers? They are worth seeing. Beautifully made; rich, handsome patterns. \$1.75, \$2.25, \$2.75, \$3.00, \$4.00, \$5.00.

A COAL FAMINE.

If there is one thing more than another to which the citizens of Edmonton point with pride it is the convenience of location of inexhaustible supplies of coal. While the coal strike was on they contrasted the fate which stared the eastern cities and towns in the face with their own happy lot, living in a place where whatever else might be short there could never be a scarcity of coal. And yet on Saturday night found many households in Edmonton without a pound of coal, without a prospect of getting any for two cold nights and a day, and the prospects none too good for the week now entered upon. The outsider naturally asks how can this be? Is not the town underlain by coal? Do not coal beds stretch for a hundred miles in every direction? If these are facts coal cannot be scarce. And yet they are facts and it is also a woe that coal is scarce. There is coal everywhere for the digging, but there are more who want to burn than there are who want to dig coal. Increase of population has increased the demand for coal and there has been no corresponding increase in the means of supply. Indeed, the sources of supply have decreased or become less accessible. The mines which were immediately under the town have been closed down for fear of injury to buildings. New mines have been opened at a distance of seven or eight miles, and of course there cannot be the prompt delivery from the mine that formerly prevailed. Besides the mine operators had not yet put on their full force of miners, the sudden cold snap took both miners and householders unawares, and to cap the climax Saturday was Russian church holiday and not a pound of coal could the mines worked by Gallien labor supply. The situation is still more unpleasant this morning as the weather has become colder, and the mines are now so far behind with their orders that it will be some time before they can catch up, no matter what efforts they make. The Bulletin is informed that the screenings or slack from the mines of which there are large piles lying very well if mixed with sawdust. The first screenings are sold at 75c a load and are used for steam raising purposes, but the second screenings are considered as waste, just as sawdust is. If by mixing the two waste products together a useful fuel can be made an all around benefit is derived.

Of course there is plenty of wood to be had but wood is a poor substitute for coal in cold weather. The very abundance of the coal and the cheapness with which it can be mined is at the bottom of the present scarcity. There is no object in accumulating a stock, as it can under ordinary circumstances be mined as needed, and of course the more fire it comes from the mine the better it is.

ATHABASCA STAGE.

The Athabasca stage came in on time Saturday evening bringing down from the Landing J. K. Cornwall, of the firm of Bredin & Cornwall, fur traders, Lesser Slave lake.

Roads are reported good except for the need of a bridge over the Vermilion. The ice there was not strong enough to carry the stage, but too thick to drive directly through and the driver had to secure an axe and chop a passage way across stream before attempting to ford it. This was rather too cool a job for weather like the last few days.

As yet the roads are not in as good shape for sleighs as for wheels as the sand and stones have worked up and mixed with the top snow. Unless more snow falls in the meantime, wheels will be used on to-morrow's stage north.

PORT SASKATCHEWAN.

McMillan and Clark have purchased W. H. White's livery business. Mr. White has gone into ranching on Sand Bar Flat, 12 miles from here.

Opening services in the new Methodist church will be held on the 9th and 10th of this month.

Two new threshing machines passed through here last week.

A farmer in this district threshed 340 bushels of oats of a fraction less than 3 acres of land.

An entertainment will be held in the N. W. M. Police barracks on Nov. 17th. Part 1 concert, part 2 a farce entitled "Six on Parle Francois." Proceeds in aid of St. George's church.

LOCAL.

—L. Boudreau, of St. Albert, is in town to-day.

—The river set fast on Friday morning, Nov. 7th.

—Miss Effie Lockhart left for Calgary this morning.

—The firemen's annual smoker will be held on Dec. 4th.

—C. deW. MacDonald went down to Wetaskiwin this morning.

—John Giles and son returned from Wetaskiwin Saturday night.

—The close season for white fish ends on the night of Sunday, the 16th.

—K. C. Pickell, of Calgary, has taken a position with W. Johnstone Walker.

—A. Prince and son and Roy Royal returned Saturday from a visit in Wetaskiwin.

—John E. Graham, of Morley, a former resident of Edmonton, came in on Saturday night's train.

—The lowest temperature yet recorded this winter on the government thermometer at Alex. Taylor's was 22 below zero, Saturday.

—Thos. Hourston is bringing in a thoroughbred Shetland pony on to-night's train, the first to be brought to this district. It is Alberta bred, but of undoubted breeding.

—Saturday night's train was one hour late in reaching Strathcona. This morning it was 15 minutes late in leaving. The was caused by the brakes requiring some fixing.

—The pulpit of the Methodist church was occupied yesterday morning by Rev. P. I. Thacker, of the Sturgeon, and in the evening by Rev. Finch, of Strathcona, in the absence of pastor Buchannan, who was assisting in the opening services of the new Methodist church at Fort Saskatchewan.

—J. G. Bryan, school inspector, returned on Friday from a trip of inspection which included Star, Beaver lake, Dried Meat Creek, Battle lake and Wetaskiwin. He drove in from Wetaskiwin on Friday. Threshing was in progress in all the regions visited and many of the farmers were finished. The machines expected to be through by the middle of November. The grain is an excellent sample, but the yield is lighter than last year. Chickens and ducks are very plentiful. Ducks and geese had not gone but were going. The lakes were beginning to freeze over, but the cold snap had not set in.

—The Boston Entertainers will appear at Robertson opera house. These artists are recommended in the most glowing terms. They have recently returned from an extensive tour to Australia New Zealand and Hawaiian Islands. The Sydney Bulletin, Australia says of "C. B. Newton, the famous humorist and comedian that he and Nat Goodwin are the two best entertainers that America ever sent to Australia. He made there an impression as a comedian of the first rank." The San Francisco Chronicle says, of Miss Durell, "that she is very original. She keeps the audience convulsed with laughter." The San Francisco Call says, "that her talent created quite a stir in this city." The Calgary Herald of last Thursday says, "The Boston Entertainers proved highly amusing; the hearty applause each number elicited testified to the skill of the artists." The Calgary Alberta of same date spoke of "Boston Entertainers as excellent; intensely interesting, quite refined and decidedly humorous." The following comment is from Geo. M. Mayberry, band master at Wetaskiwin: "The Boston Entertainers appeared here under the auspices of the band Friday night of last week before an immense audience. They gave one of the best entertainments we ever had here, equal to Albe Heywood. This entertainment is clean and decidedly humorous."

—The Canadian Northern station at the foot of the hill has been rather a neglected spot since civic holiday. However, there is still a certain amount of stir about the place all tending to have everything in readiness for the time when regular train service will be begun.

A large heating stove has been set up in the waiting room and a good fire is kept going all the time. The doors of the waiting room are unlocked during the day. A telephone has been installed in the operator's office ready for use.

Additional sidings are being laid west of the station. The track from the station to the junction with the C. & E. was all ballasted and in good shape before the ground froze up.

The town council is having Second street graded down to the station so as to make a straight road north from the station, up Bellamy's hill to the town. The road from the foot of Rogers' hill, leading past the Edmonton Hotel down to the station is being cut away so as to make a lesser grade and more space between the rails and the hill.

—The trial of Richard Norris was completed on Friday night. The jury brought in a verdict of guilty of attempted rape and the jury sentenced the prisoner to five years imprisonment with hard labor at Stony Mountain.

—Decision in the Wood case has been postponed till the 21st.

—His honor, Judge Scott, is holding court at Wetaskiwin this week.

—The Dowling Milling Co. report that the deliveries of wheat have not been so large for the past week, probably because the roads were not in good shape. Prices remain about the same, at 53 cents.

—The grain market is still quiet on this side of the river. For good samples of oats 20 cents is being paid.

—The market for butter is very uncertain. At the close of last week and today there was fairly good offerings, the price being 20 cents a lb.

—Eggs are scarce, 25 cents a dozen being paid for strictly fresh eggs.

—Chickens are plentiful at from 8 to 10 cents a lb, dressed.

—There is a fair supply of ducks at 10 to 12 cents a lb, dressed.

—Geese are scarce at 10 to 12 cents a pound.

—Turkeys are scarce and bring 12 cents a lb.

—Hogs are in good demand at 51-2c a lb.

—Beef is more plentiful at 21-2 cents, live.

—Hay has been offering in fairly good quantities at \$5 to \$6 a ton.
